Ref: Western Cape Feedback On Arbitration Award

Dear Sir

Subsequent to your letter received from Mr Vernon Seymour regarding the implementation of Arbitration award by Adv Madladla, I took initiative to discuss with the rest of the clubs in SAFA Western Cape ABC Motsepe League with the blessings of provincial chairman to resolve this matter amicably for the benefit of football in the province.

We were requested by most of the clubs to implement the Arbitration award, I took it upon myself due to the fact that I am representing SAFA Western Cape in the competition committee nationally, with a clear understanding that there is a standing resolution of PEC, that revoked your participation in the league, there is also application already to CAS to appeal the award of Adv Madladla at the same time, the two should be dealt with by the PEC so that we cannot violate our own statutes, rules and regulations.

I have sent a request after the meeting with the clubs at Stellenbosch, to the PEC to rescind the decision, to ensure that we implement the arbitration award, I want us to play football as much as I want every person in this province to respect the rules, regulations and our statutes.

We shall work with the competition committee of the province to request the inclusion of Santos FC to the Nedbank Cup fixture and the league fixture by the PEO Ms Nadia Konstabel.

I had already requested the chairman to call the meeting immediately after the office opens in January, or immediately thereafter to endorse my request for the PEC to rescind its decision to revoke Santos FC status in the league, including consideration to withdraw its appeal from CAS so that football can be played.

We shall ensure that you receive your fixture before the end of 1st week of January.

Thanking you in advance.

I hope I have informed you accordingly.

Yours in football development.
